Re: RFP for City Hall

Honorable Carmella Mantello, Mayor
City of Troy

ATTENTION: Nancy Piskutz, Comptroller's Office

Dear Mayor Mantello:

We are writing to propose a potential opportunity that could greatly benefit both the Italian Community Center (ICC) and the city of Troy, NY. The city is currently in search of a new location for City Hall and the current building that houses the ICC could be a suitable option.

Moving City Hall to the current ICC building would not only provide the city with a new and improved facility, but it could also create a unique opportunity for the ICC. We propose the opportunity to consider the possibility of segregating a portion of the current building for ICC use, ensuring that our community's needs are still met.

Before moving forward with this proposal, we would need full approval from all ICC members. We believe that this opportunity has the potential to benefit our community in numerous ways, and we encourage you and your staff to carefully consider this potential opportunity.

We look forward to discussing this further with all of you and your team and exploring the potential benefits that this opportunity could bring to the city of Troy.

Sincerely,

ICC Board of Directors

BOD/mjc
